BATTLE CONTINUES ON THE RIGHT WING

Berlin Asserts Germans Repel Every Assault of the Allies.

DIVERGENT REPORTS

Statement that von Kluck and Boehm are in Flight Not Confirmed by Official Dispatches.

Paris, Sept. 30. 2:57 p. m.—According to the official bulletin on the war given out in Paris this afternoon the turning movement of the allies north of the Somme is developing rapidly. A German attack on Tracy-le-Mont has been repulsed with heavy losses.

Berlin (via The Hague), Sept 30—The official war office statement today reports that the fighting continues on the right wing, with every assault of the allies being repulsed and with the entire German line intact.

Little that was new is contained in the report.

At the left of the center, especially along the Meuse, the Germans continue their forward movement, gaining ground very slowly, but steadily.

In the east the Germans continue their advance, and the Russian army of General Rennenkampf is being driven back in the Suwalki district. The Germans are now moving eastward along the main railway line, and it is stated that they have captured numerous prisoners and taken a number of guns.

The general situation is declared to be satisfactory, both in the eastern and western theaters of war.

Paris Sept. 30—Widely conflicting reports concerning the situation at the front are current today.

Rumors printed in a number of the papers, tell of the breaking of the German right wing. But the military authorities have no confidence in this report.

They very frankly state that fighting of the most severe character continues, but that while the French left is pushing steadily forward and the re-enforced army of General D'Amade continues its pressure on the "hooked" end of the German position which extends north and south from the Oise and the Aisne triangle. The Germans resistance is still strongly maintained.

DEATH OF MISS JACOBS.

Miss Nannie Jacobs, former matron at the Episcopal Theological Seminary near this city, died at her home at Ashland, Va., on Monday, after a long illness. Her funeral took place this afternoon, Rev. E. L. Goodwin, D. D. officiating. The interment was in Hollywood cemetery, Richmond. It will be remembered that Miss Jacobs fesigned her position a year ago last June on account of ill-health, from which she never recovered. She was a lady of high character, and the news of her death will be read with regret by many of the clergy who were students at the seminary during her term as matron.

NEWS OF THE DAY

A foreign military authority who has closely followed the western campaign, and is in touch with official source, puts the German loses to date in this theater of war at more than 500,000.

Theodore Roosevelt, addressing a large audience in the Valentine Theatre, in Toledo, Ohio, yesterday afternoon came out flatly for the whole temperance program of the Ohio Progressives.

The Russian official army Gazette states that between August 11 and September 14 the Russian forces in Galicia captured seven flags, 637 guns, including thirty-eight German guns, 823 ammunition carts, and 64,068 prisoners including one general, and 535 officers.

Rejecting every amendment, including one by Representative Humphrey, of Washington, to make a further cut of $15,000,000 in the amount to be appropriated, the House yesterday without a roll call, accepted the Senate's $20,000,000 substitute bill for the annual rivers and harbors appropriation bill.

Cold weather records for September were broken in a number of localities Monday and yesterday morning. Frost was reported from the Middle Atlantic and New England States and the upper Ohio valley. The lowest temperatures of record for September were recorded at Richmond, Va., where it was 34 degrees, Hartford, Conn., 32 degrees, and Northfield, Vt., 20 degrees.

"Cheer up; we'll spend Christmas in Berlin,' is the encouragement which General Rennenkampf has offered to his men, according to a report received in Rome from Russian headquarters. The general proffered this word of cheer for the purpose of helping his officers and soldiers stand fast during the present discomforts and sufferings of war.

Loncoln Beachey had a narrow escape from death at the Brockton, Mass., fair yesterday when, after looping the loop high above the 40,000 spectators, his engine stopped and he was forced to make a swift volplane to the ground. He dropped in a field near the grounds and when ten feet above the ground fell out of his seat in the plane. His clothes were torn and he was badly bruised. The wings of the plane were bent and the steering wheel was wrenched loose.

Through the arrest and confession of Harry Boomer, rubber worker, the police of Akron, Ohio, have solved the mystery of the murder of Miss Vinnie Becker, who was found dead with an axe imbedded in her skull in a rear room of her brother's tea store here early yesterday. "I made a woolen maliet, intending to stun her, so I could rob the store," said Boomer, who has been out of work for some time. "When I hit her she recognized me, so I killed her with a hatchet I found on the floor." After his arrest in East Akron, Boomer was taken to his room. While there he reached for a revolver he had hidden under a blood-stained coat and attempted to shoot himself. Police disarmed him.

FIGHTING IN EAST PRUSSIA

Germans, Heavily Reinforced, in Engagement With Russians.

DESPERATE BATTLE

Czar's Troops Said to Have Made Material Gains All Along Line—Servians Occupy Semlin.

Petrograd, Sept. 30—The German army, heavily re-enforced, is battling today with the Russian army of General Rennenkampf in the territory between the Nieme river and the east Prussian frontier. The fighting is especially desperate in the vicinity of Ossowetz, Druskeniki, Augustowo. The objective of the Germans is the northern outlet to the forests in that section, and they are also anxious to get across the Niemen river and to retake Grodno, from which they were driven.

It is stated that the Russians have made material gains all along the line, although the battle is still far from a decisive stage.

Meanwhile the onward march of the Russians through Galicia is declared to be proceeding uninterruptedly in two parallel lines. The Austrians' resistance is declared to be already so badly broken that the troops of the dual empire seem unable to make a decided stand. It is not believed that they will give battle until Cracow is reached. The Austrian crown prince Archduke Karl Franz Josef, is reported to have reached Cracow yesterday and to have taken command of that post with General Conrad von Hoetzendorf as his chief of staff.

Nish, Sept. 30—It is officially announced that the Servians have re-occupied Semlin, on the north side of the Save river in Slavonia, from which they were driven a forthnight ago by an overwhelming Austrian army.

The armies of the crown prince are declared to have taken the Austrian fortifications in a series of desperate bayonet charges in which many Austrians were killed and wounded.

The attack was a complete surprise to the Austrians, and they were compelled to abandon great quantities of stores in their flight.

The war office says the Servians are now pursuing the defeated Austrians, and that the siege of Belgrade will soon be raised.

FAMINE THREATENED

Germans are Facing a Grave Food Problem in Brussels—May be Revolt.

London, Sept. 30—The scarcity of food in Brussels has raised a grave problem, according to C. R. Hawkin, who has just returned from Belgium where he completed arrangements to transfer a number of wounded Belgian soldiers to England.

The situation in Brussels is one of great uncertainty, said Mr. Hawkin. There is the gravest danger of starvation. Food is scarce and 180,000 people are applying for rations which the German administration is finding it difficult to supply. There is the further danger that the workingmen of the city may rise in revolt.'

Mr. Hawkin was greatly impressed by the spirit of the Belgian troops at Antwerp. Regarding conditions there he said:

'Every night a sortie is made, and every morning brings its quota of dead and wounded, sometimes as many as 1,000 making a heavy drain on the garrison, but the usefulness of these expeditions cannot be exaggerated. The German outposts are reported as almost terrorized, not a night passing without some of their supply trains being blown up. All these incidents tend to upset the careful planned arrangements of the German Army. The Belgians at Antwerp have been nicknamed the Black Rats, on account of their destructive nocturnal activities.'

LOOKS TO UNITED STATES

British Officials Believe This Government Will Bring About Peace.

London, Sept. 30—Since President Wilson made his statement that peace overtures were premature at the time, English officials have felt reassured and they now express confidence, that the United States will, at the proper time, exert its good offices to bring the war to a close under conditions insuring a permanent peace in Europe.

High officials express confidence that the United States after the continental combatants had become somewhat exhausted by the struggle would exert a powerful influence for peace and make it possible to negotiate a treaty which would require European nations to submit their future differences to the United States for arbitration, thus making a recurrence of the war impossible.

Washington, Sept 30— A despatch on the part of the British officials to be relieved of responsibility for declining to entertain proposals looking to the restoration of peace in Europe is believed by the State Department heads to be the explanation of dispatches from London saying Great Britain will be glad at the proper moment to accept the good offices of the United States to that end.

British officials, as well as the public in England, have taken notice of the many appeals for peace proposals that have been directed to President Wilson from various sources in the United States. As understood here, the British officials are keenly appreciative of the correctness of the motives of the people, and are reluctant to be placed in the position of rejecting any overures. At the same time while officials here believe the British government is quite willing to have it unofficially known that at the proper time it will welcome peace overtures they think that the time, as indicated recently by Sir Edward Gray, will not arrive until the conflict has been so decisively settled that there is no longer a possibility of the same issue arising again.

GERMANS ARM FLEET

Immense Guns are Being Placed on the Warships in the Kiel Canal

Copenhagen, Denmark, Sept 30—Travelers arriving here from the Kiel Canal say that the Germans are busy placing new ordinance which the Krupp works has been experimenting with for the past two years, on the armored cruisers and dreadnoughts.

The canal is described as being crowded with warships, including the largest battleships. The arsenals are busy day and night and long trains arrive continuously with immense guns for the ships.

The Germans are reported as declaring that the whole fleet will soon be ready to fight.

WALES TO SEND 50,000 MEN.

Lloyd-George Delivers a Patriotic Speech at Cardiff.

Cardiff, Wales, Sept. 30.—At a big meeting here yesterday, over which the Earl of Plymouth presided, David Lloyd-George, the chancellor of the exchequer, spoke of the government's decision to raise a Welsh army of 50,000 men.

Mr. Lloyd-George, who delivered a rousing speech, said that Glamorganshire already had recruited 24,000 and Monmouthshire 12,000 men. He frankly told his hearers that the recruits were not going out for a picinc, but for a stern enterprise which would involve hardships, wounds and danger, but, he added, a vast majority would return and would have glorious memories to the end of their lives—memories they would not barter for all the gold in the Bank of England.

The chancellor of the exchequer pointed out that under conscriptions Wales would be compelled to contribute a quarter of a million men, but that a voluntary army of 40,000 men would be just as good as a forced army five times that number.

FRICTION BETWEEN ITALY AND AUSTRIA

Protest Entered Against Francis Joseph Placing Mines in Adriatic

DIPLOMATIC CRISIS.

Believed Austria Will Refuse to Comply With Demand—Italy Must Then Enforce Her Ultimatum.

Rome, Sept. 30.—Italy took today what is generally accepted as the first step leading to an open break with Austria. The Italian ambassador at Vienna was instructed formally and most energetically to file a protest against the strewing of mines by Austria in the Adriatic.

He was directed to demand that the Austrian government immediately discontinue this practice.

Inasmuch as the mines are the only thing which has permitted the Austrian fleet to remain within the protection of the Pola fortifications, it is not believed here that Austria will agree to stop planting them. Then it will be up to Italy to enforce her decree by her army and navy.

In the official statement sent to Vienna, it is pointed out that many Italian fishing vessels have fallen victims to the mines. It is stated that hundreds already have been picked up, that many others have floated ashore on Italian territory, and that the fishing craft are in grave danger every time they put out to stretch their nets.

Mr. Samuel G. Brent, commonwealth's attorney, is spending today in Richmond. He will return tomorrow.

SIDE WITH DEAD ENGINEER.

Derailed Car Kills Him and Train Runs Far Until Stopped.

Baltimore, Sept. 30.—With his hand on the throtle of the 4:10 A. M., passenger train on the Pennsylvania Railroad from Baltimore to Philadelphia, Benjamin Redmiles, the engineer, was swept out of his cab and instatnly killed yesterday morning, when the train "sideswiped" a derailed freight car near Orangeville.

With half of the cab torn away and the engineer dead, the train, running slowly, went on for several hundred feet before the fireman could climb over to the throttle nad cut off the steam.

There were only a few passengers on the train, most of whom were asleep and did not know their peril. When the crash was heard, folowed by the stopping of the train, they all hurried out into the darkness. Half of the cab had been split away, and under its wreckage the badly-mangled body of the engineer was found.

JILTED SWAIN ENDS LIFE

Suicide Throws Girl Into Nervous Swoon.

Nazareth, Pa., Sept. 30—When Santo Marrola, aged 24, went to visit his best girl and she would have nothing to do with him, Marrola in a sudden fit of melancholia went to an empty room in the house and killed himself with a bullet from a revolver, fired into his abdomen.

The girl who jilted Marrola was the first to rush to the room and fell in a swoon, her condition being quite serious for a time.

SHOT AND KILLED.

One Man Dead as Result of Row in Italian Restaurant.

Pocahontas, Sept. 30.—Angello Santalo, an Italian, shot and killed another Italian named Franco Ellet, in an Italian restaurant here, after Franco Ellet had stabbed an Italian named Dominic Phone.

It seems as if Ellet and Phone were fighting, and Ellet was getting the best of a stabbing match when Angello Satalo interfered and attempted to stop the scrap. In so doing Ellet atempted to stab Satalo, who drew a gun and killed him.

Santalo bore a good reputation here and has been in the employment of Mr. Joe Matz for a number of years.

ANTWERP ATTACK BEGUN

Germans Bombarding City's First Line of Defenses.

Amsterdam, via London, Sept. 30.—The Germans have commenced their attack on the first line of defense of Antwerp, according to dispatches received by the Amsterdam papers. Moll, which is an important railway junction near the Dutch border, was occupied by the Germans Sunday, and yesterday the Germans, who again occupy Malines, began a bombardment of Lierre, directly in front of Antwerp. They also continued their bombardment of Forts Waehel and St. Catherine. It is believed heavy Austrian artillery is being used.

Lierre, according to a message to the Handelsblad, has been under shell fire since early morning. The people at first hid in the cellars, but subsequently fled to Antwerp, being joined by fugitives from the surrounding villages. It is reported that many houses have been destroyed and some of the inhabitants killed and wounded. One shell fell on a hospital, killing nine persons.

Amsterdam Sept. 30—A dispatch to the Telegraph from Antwerp state that since 8 o'clock yesterday morning the Germans have been bombarding Lierre, a manufacturing town nine miles southeast by east of Antwerp.

The entire population of Lierre has fled to Antwerp. It is feared that the whole town is now in ruin.

NO HOARDING BY VIRGINIA BANKS

Judge Prentiss so Reports to Secretary of the Treasury McAdoo.

BEEN NO INCREASES

No Evidence of Raising Rates for Loans or Other Efforts to Take Advantage of Situation.

Richmond, Sept. 30.—Judge Robert R. Prentis chairman of the State Corporation Commission, yesterday afternoon announced the result of an investigation conducted by the commission in the last few days with a view to ascertaining whether any State bank in Virginia has been induced to change its business policy because of financial conditions brought about by the European war so as to hoard an unnecessary surplus or charge an unnecessary high rate of interest.

The result is made known in a letter addressed to Secretary of the Treasury McAdoo, and shows that the banking department of the commission found no banking institution in the State taking an unfair advantage of the situation Instead, the State banks are declared to be pursuing a patriotic and unselfish policy. The letter of Judge Prentis to Mr. McAdoo reads:

Department of the State Corporation Commission
"Richmond, Va., September 29, 1914.
"Hon. W. G. McAdoo, Secretary of the Treasury, Washington, D. C:
"My Dear Sir—Referring to my telegram of September 25 in response to yours of September 24, in which I stated that this commission and the banking bureau under its supervision would cordially co-operate with you in your effort to remedy any unsatisfactory conditions that might exist growing out of any improper building up of cash reserves or of charging exorbitant rates for new loans by State banks in Virginia, so far as we might lawfully do so. I write to say that we have given the matted the attention we promised with the view of ascertaining the facts.

"We can now say, without any hesitation, that our investigation does not indicate that the Virginia State banks have recently changed their policy either by any improper building up of their cash reserves or by increasing their rates for loans. The reserves have not materially increased within the past twelve months, and we believe that those in charge of the banking institutions of Virginia are endeavoring to meet the difficulties of the present business situation with as much unselfishness and patriotism as any other class of our citizens.

"Very respectfully yours,
"ROBERT R. PRENTIS,
"Chairman."

Weak Lungs Often Lead to Serious Illness

If you have weak lungs, you are generally subject to colds or throat trouble and easily susceptible to serious Lung Trouble. In many cases pneumonia or bronchial troubles leave the lungs in a much weakened condition. Eckman's Alterative is a medicine for the throat and lungs which has been found to be very beneficial, even when a change of climate and other treatments failed to bring relief. Read of this case:

231 S. Atlantic Ave., Haddonfield, N. J. "Gentlemen: In the fall of 1905 I contracted a very severe cold which settled on my lungs. At last I began to raise sputum, and my physician then told me I must go to California immediately. At this time I was advised to take Eckman's Alterative. I stayed at home and commenced taking it the last week in October. I began to improve, and the first week in January, 1906, I resumed my regular occupation, having gained 25 pounds, fully restored to health. It is now seven years since my recovery has been effected, and I cannot praise Eckman's Alterative too highly."

(Signed) W. M. TATEM.

The route of the parade of the Sunday School children of Alexandria, to take place on October 11th, was announced at a meeting of the committees having the affair in hand, last night by Captain P. E. Slaymaker, who has charge of this feature.

The children will form at the intersection of Prince and Fairfax street, march down Fairfax to Cameron, up Cameron to Washington, out Washington to Wythe, countermarch on Washington to the corner of Cameron and Washington where the stand will be erected.

The girls will be dressed in white and will wear colored sashes across their breasts, each color indicating a different Sunday School. As the children proceed to the stand they will sing, "Onward Christian Soldiers," and "The Son of God Goes Forth."

The bands of the Alexandria Musical Association and Lone Star Camp of the American Indian Guard, will furnish the instrumental music.

The vocal music will be under the direction of Percy S. Foster, of Washington.

Last night's meeting was an enthusiastic one, all of the Sunday Schools in the city being represented. The children will meet in the Alexandria Light Infantry Armory, on next Sunday afternoon at 3 o'clock to rehearse the music and parade formation.

JURY UNABLE TO AGREE

A jury in the circuit court of Fairfax County Judge J. B. T. Thornton, presiding, was unable to agree on a verdict yesterday afternoon in the suit of Mrs. Emma J. Huffman, against the Washington-Virginia Railway, for $5,000 damages for an alleged assault by one of the conductors of the electric line. The assault is said to have been committed at night on the last car leaving Fairfax Court House. Mrs Huffman was represented by Attorney R. C. L. Moncure and the railway company by Attorneys John S. Barbour, of Fairfax and James R. Caton, of this city. The attorneys for the railway demurred to the evidence.

PARADE IN BALTIMORE.

30,000 Catholic Men, Women And Children in Pageant.

Under clear autumnal skies with just enough chill in the atmosphere to invigorate, more than 30,000 Catholic men, women and children paraded through the streets of Baltimore yesterday. It was one of the greatest sectarian demonstrations ever held, the forces of local Catholics being augmented by delegations from many cities. The parade was a feature in connection with the convention of the American Federation of Catholic Societies, which has been in session here since Sunday.

It was reviewed by Cardinal Gibbons, dignitaries of the Catholic Church from many sections of the United States, Governor Goldsborough and Mayor Preston. All voiced the same sentiment that it was one of the greatest affairs of its kind ever held, and by far exceeded the expectations of everyone.

The pageant took three hours to pass, and thousands of spectators lined the sidewalks all along the route. The demonstration was sectarian only, as far as the marchers were concerned. Men and women of many creeds were among those who watched the spectacle.

A large delegation of the members of St. Mary's Catholic Church of this city took part in the parade. The Holy Name Society Band was loudly applauded as it passed along the route.

There will be a musical and literary entertainment at the Lyceum Hall tonight. A large crowd is expected.

Yom Kippur, the Day of Atonement, marks the close of the New Year's holiday and the beginning of the fasting season of the atonement period. It is characterized as a day for the re-establishment of full recompense for their past shortcomings.

The period is generally observed by attendance upon the means of worship and by a strict season of fasting for the 24 hours which it occupies.

AMERICAN RED CROSS.

Substantial Contributions for Work to Come From Alexandria.

The American Red Cross work on the battle fields of Europe is to be assisted by a substantial contribution from Alexandria on next Sunday.

A meeting of the officers of the Spanish War Relief Association, which was formed here in 1898 for the purpose of raising funds for relief work among the American troops in Cuba and the Phillipines, was held yesterday at the residence of the president, Miss Katherine H. Stuart.

A decision was reached by the association to donate a portion of the funds remaining in bank from the war fund of the Spanish-American war to the Red Cross work in Europe.

The money will be placed in the collection to be taken up on Sunday morning at Christ Episcopal Church, when the Rev. William J. Morton, rector of the church, will hold a special peace service. The collection will be devoted to Red Cross work.

WILL CONFER DEGREES.

Officers of George Washington Memorial Lodge of Perfection, Randolph Chapter of the Rose Croix, Lafayette Council of Knights Kadosh and Virginia Consistory, all branches of Scottish Rite Masonry, will leave tomorrow morning for Manassas, where they will confer the degrees of the order upon a large class.

COMET IN THE SKY.

Delavan's Wanderer Now Visible to the Naked Eye.

Delavan's comet, which has for some time been the object toward which the telescopes of astronomers throughout the United States have pointed, is now visible to the naked eye, and will remain visible until the close of October.

The comet may be seen about 10 o'clock at night, its location in the heavens being at a point almost directly below the Pole Star. Locating that star, the amateur observer should follow with his eyes an imaginary vertical line toward the horizon, where, low in the northern sky, the celestial wanderer may be seen on any clear evening. Later at night the comet apparently rises higher in the heavens, this, of course, being due to the rotation of the earth. It is stated the best time to observe the comet is between 2 and 4 o'clock in the morning, when it reaches it greatest altitude above the horizon.

Observed through ordinary field glasses the comet appears as a brilliant body, the nucleus, or head, of the comet being so dense, as to present an appearance almost starlike while the tail flares away to a considerable length. Early in the evening, the comet's tail lies almost parallel with the horizon, but later it appears to rise until it is noticeably higher than the head of the comet.

LET THE REPUBLICAN CANDIDATE ANSWER.

The Republicans of the eighth district are again attempting a forelone hope in the effort to place a Republican congressman in the halls of Congress. There are no conflicting issues in the present campaign except the broad differences that distinguish the Democratic party on one hand and the Republican on the other. No Democrat, worthy of the name, can go to the polls and cast a vote that will register disapproval of the splendid patriotism, the unswerving devotion and the hard common sense exhibited by President Wilson and the Democratic representatives in Congress.

Here are some questions which we would like to have the Republican candidate answer:

Would you re-establish the old partnership between corrupt politics and corrupt business?

Which laws enacted by the democrats would you repeal?

Would you repeal the income tax?

Would you take a backward step on the Payne-Aldrich-Smoot tariff?

Would you repeal the Federal reserve act, for which so many of your Senators and Representatives voted?

Would you restore the panic-breeding currency laws that made possible the great industrial and financial disaster of 1907?

Would you repeal the Lever agricultural extension bill against which not a republican voted in either House or Senate?

Would you put down again the pipe lines, which Woodrow Wilson has taken up, connecting the special interests with the seat of government?

Would you summon Mulhall and his fellow-lobbyists back to the halls of Congress?

Would you repeal the Federal trade commission act, against which not a republican voted in the House of Representatives?

Would you repeal the Clayton anti-trust act, which supplements and strengthens the Sherman law, and for which 41 republican Representatives and six republican Senators voted?

Would you repeal the democratic labor laws, for which so many of your Representatives in Congress voted?

Would you repeal the Alaska railroad act and once more endeavor to deliver Alaska to the Guggenheims?

Would you return to your old policy of throttling the farmer by failing to deposit government funds in country banks at crop-moving time?

Would you return to Cannonism in the House of Representatives?

Would you repeal the Seaman's bill, which passed both House and Senate by acclamation?

Would you repeal the Bryan peace treaties?

Would you substitute "dollar diplomacy" for "watchful waiting?"

Do you repudiate Root, Lodge, Cummins, Kenyon, Brady, Jones, Clapp, La Follette and a host more of your leaders for voting for Wilson measures?

Do you repudiate every republican newspaper that has praised Woodrow Wilson's handling of the Mexican situation?

Dou you endorse the action of those republican leaders who excoriated the President for not seizing Mexico City at the point of the bayonet when they knew by so doing he would have produced in the Western Hemisphere what there is in the Eastern Hemisphere—Hell on Earth?

Verily, the Republican candidate enters upon a dangerously heavy handicap in marching to the front with an anti-Wilson burden strapped to his dropping back.

LONG-DRAWN-OUT. ENGAGEMENT.

A battle between Germany and the Allies has been in progress for nearly three weeks, and day after day the official dispatches are to the effect that conditions have not materially changed. Dispatches from Paris last night which stated that Von Kluck and Behm, German generals, were in retreat, broke the monotony of the usual stereotyped statements. Reports from the field of operations today however, failed to confirm these rumors, but stated that fighting was still in progress. From their tenor it seems neither belligerent has made any material gains so far.

Dispatches from Rome today state that a demand is to be made upon Austria that the work of mining the Adriatic Sea cease at once. It is not thought that Austria will comply with this demand, but will persist in the work in which she is now engaged, in which event Italy will attempt to stop her.

The war cloud shows no indication of breaking. In fact, it seems to be thicker at present. Denmark is waiting eventualities. She is in readiness to enter the war as soon as her neutrality is violated by Germany.

"I find relaxation and complete enjoyment in Tuxedo. It's a nerve steadier and a sure fire, slow burning tobacco. Easily my favorite."

"Tuxedo tobacco is unquestionably the acme of perfection; smoking Tuxedo makes life better worth living."

FRED GILBERT
the celebrated trapshooter
"The coolest, most fragrant, most pleasant tobacco in my experience — Tuxedo. Leads in mildness and purity."

Quick on the Trigger With a Snap-Shot Eye

THE crack trapshooter has to be a man with steady nerves and muscles absolutely under control—always ready, at the sudden jerk of a string to swing his gun into place and bring down his clay pigeon. This means trained, not to the minute, but to the split-second. *He* takes no chances with his *nerves*.

We present the names of some of these crack shots who smoke Tuxedo. They like to smoke; but they take no chances on a tobacco that might "throw them off."

Tuxedo

The Perfect Tobacco for Pipe and Cigarette

is purposely made to give you all the benefits of the highest grade smoke. It is made from the very finest tobacco Kentucky grows—ripe, mellow, sweet and mild old Burley, aged right up to perfection-day. Then treated by the original "Tuxedo Process," which takes out the sting, makes Tuxedo smoke cool and slow, and guarantees that it *cannot bite* your tongue.

Tuxedo has had many imitators; none has ever equalled it in sheer quality and smoking-value.

MASTS SNAPPED OFF

Disabled Three Master Towed Into Norfolk by Steamer.

Norfolk, Sept. 30—With her fore and mainmasts washed overboard and her foresail stove in as the result of being swept by a heavy sea early Saturday morning, the three masted schooner Helen Montague, Captain Cook, was towed into Norfolk Monday by the steamer Suffolk Captain Hersey, which picked up the schooner on Sunday afternoon short distance above Fenwick Island.

The Montague, loaded with a cargo of chesnut railroad ties, was bound from Potomac river ports to Salem, Mass., was caught in the northeast storm which swept the coast last Thursday and Friday. Captain Cook said yesterday that the vessel was beating her way up the coast against a northeast breeze and a heavy sea.

About 4 o'clock Saturday morning when the vessel was rolling heavily in the trough of the sea, a big sea struck the vessel and broke over her decks. The fore and mainmasts snapped off at the deck and the top of one of them fell against the forecastle badly damaging it. One member of the crew, who was asleep in the forecastle at the time, was slightly injured. The mainmast, foresail, main and foretopsails and all the jibs were washed overboard by the sea.

IN GERMAN TRENCHES

Night Alarms Add to Suffering, Say British Writer.

London, Sept 30—A picture of the sufferings of the German troops, cramped in miles of underground trenches and galleries along the Aisne river, is given by the Paris correspondent of the Daily Mail.

He says the autumn weather, with its warm sunshine in the daytime, damp nights and bitter cold dawns, is extremely trying to men who are compelled to spend every minute in the same section of the damp, depressing trenches. If the men step from their trenches to the level ground, they do so at the risk of their lives. At night the chance of an unexpected attack from the Allies infantry is so great that every German soldier must be at his post in the narrow ditch which is home and defense, sleeping as best he may with his rifle at his side, ready to spring up at any moment at the alarms which come very frequent these dark cloudy nights.

The nerves of the sentries are sorely tried. They mistake the most innocent sounds for French infantry creeping up. When a sentry, tricked by his nerves, fires his rifle he brings the whole advance post up at double quick and they find that there has been a false alarm. Such alarms come half a dozen times on some nights and they are very wearing on the troops.

The trench system is most elaborate. It constitutes a whole subterranean town, with main throughfares, side streets and telephone wires running all along. There hundreds of thousands of men eat live and sleep so well concealed that from a little way down the hill in front nothing is to be seen revealing the existence of the trenches except the hardly noticeable little bank of earth which is slightly raised above the level.
